EXPERIENCE

Workato Inc, Singapore — Enterprise Account Lead, SG & MY

September 2024 - PRESENT

Agentic AI Strategy: Leading the transition of GLCs and Public Sector entities from legacy data silos to high-impact autonomous enterprise environments.

Value Realization (PSD): Partnered with the **Public Service Division (PSD)** to define ROI for self-service automation, articulating significant reductions in triage effort and man-day savings per cycle.

Strategic Stakeholder Navigation: Spearheading engagements with **GovTech, IMDA, and Synapse** to build executive sponsorship for "automation-first" initiatives.

VEISO SAS, Singapore — Regional Business Development & Transformation Lead

2019 - 2024

Complex Delivery Governance: Managed end-to-end delivery for SaaS and bespoke AI-integrated solutions for **MTI** and **MAS**

Change Agency: Navigated organizational resistance by utilizing quick prototyping to align stakeholder expectations with technical feasibility, ensuring successful adoption of new digital pipelines.

NCS Group, Singapore — Global Business Development / Land Transport Lead

2016 - 2018

Public Sector Modernization: Led digital transformation for "nation-building" projects, including **LTA (ERP 2.0)**, bridging legacy infrastructure with Smart City capabilities.

Regional Smart City Integration: Managed complex consultancy delivery for **HK Public Sector**, overseeing the integration of new Smart City features within large-scale homeland security agencies.

Capgemini / Logica / Comverse, Various Locations — Senior Management & Consulting

2000 - 2015

Senior Leadership (Comverse): Promoted to Senior Management for consistently adding tangible value to customer processes and proposals through consultative engagement.

Global Program Orchestration (Amex): Directed a multi-workstream program for **American Express (Japan)** to transition corporate processes to a mobile-first environment.

Regional Market Insights (Nokia): Managed complex delivery across diverse Southeast Asian markets, navigating varied regulatory and digital maturity landscapes.

EDUCATION

Nanyang Technological University (NTU), Singapore — *FlexiMasters in AI and AI Ethics*

2022 - 2025

Focus: Responsible AI deployment, Deep Learning, and LLM frameworks within ethical boundaries for Public Sector adoption.

National University of Singapore, Singapore — *Bachelors of Science (Computer Science) and Master of Technology (Software Engineering)*

SKILLS and PROJECTS

Core Competencies: AI Transformation Leadership, Public Sector Advisory (GCC fluency), C-Suite Stakeholder Management, and ROI/Business Case Modeling.

Key Project - NTU: Lead advisor for AI-First university operations, preparing leadership to modernize academic and administrative processes.

Technical Knowledge: Deep familiarity with the **Google Cloud ecosystem**, Agentic transformation, and the global AI/ML landscape.
