PROFESSIONAL PROFILE

Strategic Sales Lead with over 20 years of experience driving large-scale digital transformations for Top 100 companies and government agencies across APAC. **Experienced in architecting Event-Driven Architectures (EDA)** that unlock data silos to power real-time AI initiatives and autonomous workflows. **Proven track record of navigating complex, consultative sales cycles** for global brands (Amex, Nokia, Huawei) and "nation-building" projects (LTA, Petronas, SBS-Transit), positioning real-time infrastructure as the mission-critical backbone for modern IT.

EXPERIENCE

Workato Inc, Singapore — Enterprise Account Lead, SG, MY and Greater China

September 2024 - PRESENT

Unlocking Enterprise Silos: Leading the transition of government entities and GLCs from static data silos to **real-time, event-driven workflows**, ensuring AI agents have immediate access to actionable data.

Hybrid Infrastructure Strategy: Positioned complementary architectures where **Solace's on-premise event brokers** provide the secure, real-time foundation that cloud-only platforms cannot, addressing critical data sovereignty requirements.

AI Orchestration and Event Architecture (SBS-Transit): Delivered tailor-made integration solutions for **AI-First operations**, enabling real-time reaction to operational events with decisive action.

Strategic Growth: Manage a **\$1M ARR portfolio** by identifying high-impact use cases where real-time data movement is the essential enabler for AI productivity.

VEO SAS, NCS Group Singapore — Regional Business Development & Transformation Lead

2016 - 2024

Real-Time Modernization (LTA SimplyGo & ERP 2.0): Spearheaded the shift toward modernized, policy-led transport infrastructure using **EDA (Kafka/PubSub tech)** to move live vehicle and passenger data across distributed smart-city systems.

C-Suite Advisor: Convinced executive stakeholders to transition from legacy "batch" systems to an **AI-ready backbone**, reducing vendor lock-in and increasing technical agility.

Public Sector Modernization: Led digital transformation for "nation-building" projects, including **LTA (ERP 2.0)** and **HK Public Sector**, bridging legacy infrastructure with Smart City capabilities.

Capgemini / Logica / Comverse, Various Locations — *Senior Management & Consulting*

2000 - 2015

Top APAC and Global 100 Strategic Advisory: Managed complex delivery and digital transformation programs for global leaders including Nokia, Huawei, and Sonera.

Regional Market Orchestration (APAC): Led high-stakes engagements for Petronas Group, AirAsia, and HK Conglomerates, navigating diverse regulatory landscapes to implement real-time service provider solutions.

Global Program Leadership (Amex Japan): Directed a multi-workstream program to transition corporate processes to a mobile-first environment, acting as the unifying thread between regional technical teams and global standards.

Senior Management Promotion: Accelerated to Senior Consulting Lead roles (Capgemini and Logica) by consistently adding tangible value to customer proposals and business-critical processes.

EDUCATION

Nanyang Technological University (NTU), Singapore — *FlexiMasters in AI and AI Ethics*

2022 - 2025

Focus: Responsible AI deployment, Deep Learning, and LLM frameworks within ethical boundaries for large enterprises.

National University of Singapore, Singapore — *Bachelors of Science (Computer Science) and Master of Technology (Software Engineering)*

SKILLS and PROJECTS

Core Competencies: Consumption Revenue Forecasting, Complex Deal Strategy (Demand Creation), C-Suite Stakeholder Management, Event-Driven Architecture (EDA), PubSub Systems (Kafka/Solace equivalents), Hybrid Cloud/On-Prem Strategy, Global Enterprise Sales, Real-Time Data Orchestration..

Data Silo Specialist: Proven history with Synapse, PSD, and Petronas in breaking down silos to create real-time "Whole-of-Government" and cross-domain, enterprise data flows.

Technical Knowledge: Deep familiarity with Agentic transformation, OpenAI model integration, and the global AI/ML landscape.
