

PROFESSIONAL SUMMARY

Enterprise Sales executive with over 15 years of experience selling data-driven solutions into Singapore's Public Sector. Proven track record of translating complex data challenges — from IoT sensor streams to AI/ML analytics to Agentic AI — into C-Suite business value and long-term strategic partnerships. Deep expertise in guiding government agencies through pilot-to-production lifecycles for data platforms, applied ML, and Smart City solutions. Leveraging academic foundations in AI, Big Data Analytics, and AI Ethics to credibly articulate the business value of cloud and big data technologies to both technical and policy stakeholders.

CORE COMPETENCIES

- Vertical Expertise: Public Sector (GovTech/GCC, MTI, MAS, HTX, JTC, Synapse), Telcos (BSS/OSS), and FSI.
- Data & AI: Big Data Analytics, Data Pipeline Architecture, Applied ML, Agentic AI, Enterprise MCP, Workato iPaaS, Snowflake.
- Consultative Sales: MEDDPICC, Command of the Message, Challenger Sale, Bespoke Sprints, Salesforce CRM Strategy.
- Strategic Orchestration: Leading cross-functional squads (Architects, Partners, Bid Management) and driving partner ecosystem engagement (SIs, GSIs, ISVs).

PROFESSIONAL EXPERIENCE

Workato Inc | Enterprise Account Executive – SG Public Sector and Malaysia | Sep 2024

- Drove adoption of AI-driven automation (iPaaS) for government bodies, architecting data pipelines to Snowflake and building semantic data layers — enabling agencies to unify fragmented data for analytics and AI-driven decision-making.
- Architected "automation-first" strategies and data integration pipelines that served as the foundation for Agentic AI, Enterprise MCP, and cross-agency data unification.
- Managed \$1M ARR across new logo acquisition and existing account growth (renewals and expansions).

VEO SAS | Business Development Director – Salesforce & Bespoke Solutions | 2019 - 2025

- Managed end-to-end sales of SaaS and bespoke development for enterprise clients, specializing in high-touch consultative engagements.
- Won and delivered large Public Sector contracts: MTI, IMDA, and MPA (ARR > \$1M, 3-year terms) and for MAS — all through formalized government tendering processes.

ARM UK | Business Development/Staff Engineer – IoT Platform | 2018 - 2019

- Bridged IT & OT for Telcos and Enterprises, deploying IoT data platforms for Smart City use cases including real-time security monitoring (HTX) and estate management analytics (JTC Punggol Digital District).

NCS Group | Client Partner / Enterprise Sales Lead, Global Business | 2016 - 2018

- Led digital transformation bids for Public Sector agencies, integrating applied ML (human & vehicle traffic prediction, land & air transport optimization) into citizen-facing Smart City platforms.
- Bridged legacy infrastructure to Smart City capabilities, turning real-time transport and traffic data into policy-driven outcomes for government stakeholders at MTI and MAS.
- Delivered bespoke solutions valued at over \$15M through complex, formalized tendering processes and pilot-to-production cycles.
- Expanded strategic client pipelines by 300% across Singapore Public Sector and Malaysia GLCs through CRM-driven territory planning.

Actility SA | Business Development Director – Telco Solutions | 2015 - 2016

- Secured major IoT and Smart City platform deals across APAC, including IDA's Smart Nation initiative — enabling large-scale sensor data ingestion and analytics for urban planning and public safety.

DigitalRoute AB | Business Development Director – Telco Solutions | 2011 - 2015

- Managed regional technical sales across APAC, opening new markets in Greater China and ANZ and winning a major project with Jio Reliance.

Comverse Inc (Amdocs) | Business Development Manager – Telco Solutions | 2008 - 2011

- Led a regional sales and presales team in Southeast Asia, achieving the largest global win for a new Mobile Advertising Platform at SingTel & Associates — a \$5M+ 3-year contract recognized with the Most Innovative Product Award.

Logica (now CGI) | Presales & Senior Solution Consultant – Telco Solutions | 2005 - 2008

- Delivered technical consultancy and business analysis for large-scale enterprise system integrations.
- Developed foundational expertise in complex system architecture and project governance.

SingTel & Optus | Senior Manager in Group IT – Business Solutions | 2003 - 2005

- Managed large-scale transformation projects and led functional requirement development.

Capgemini | Senior Consultant / Account Manager – Telco & Digital | 2000 - 2003

- Led strategic accounts for Tier-1 Telco providers in APAC & Europe, focusing on digital customer experience and BSS/OSS modernization.
- Orchestrated large-scale consulting engagements, moving clients from legacy hardware-centric models to software-defined architectures.
- Managed complex delivery ecosystems involving third-party vendors and internal offshore delivery centers.

SELECTED PROJECTS & DATA PLATFORM EXPERIENCE

- Data Pipeline & Semantic Layer Architecture: Designed and built data pipelines to Snowflake and semantic data layers for government agencies, enabling cross-agency analytics and AI-driven decision-making.
- Applied ML for Smart City Transport: Deployed predictive ML models on human and vehicle traffic data, optimizing land and air transport operations for Singapore government stakeholders.
- IoT Data Platform for Public Safety & Estate Management: Implemented real-time IoT data ingestion and analytics platforms for HTX security monitoring and JTC Punggol Digital District estate management.
- Smart Nation Sensor Data at Scale: Architected large-scale sensor data platforms under IDA's Smart Nation initiative for urban planning and public safety analytics.

EDUCATION & CERTIFICATIONS

AlxTech: AI Singapore, Nanyang Technological University (NTU) - in progress

- 18-hour Power-Up phase + 12-month Master phase covering prompt engineering, context engineering, agent development, responsible AI, MCPs & tools, agentic product development, and AI-assisted debugging and testing for production AI systems.

FlexiMasters in Artificial Intelligence and AI Ethics: Nanyang Technological University (NTU)

- Coursework: LLMs, Deep Learning, Responsible AI

Specialist Diploma in Business and Big Data Analytics: Nanyang Polytechnic

- Developed with Spark and open-source tools across the Hadoop ecosystem; built applied ML projects including near-real-time fraud detection, recommendation engines, and telco services usage pattern analytics

-

Master of Technology (Software Engineering): Institute of Systems Science (ISS), NUS

Bachelor of Science (Computer Science): National University of Singapore (NUS)

TECHNICAL SKILLS

- Cloud / Data / AI: Snowflake, Spark, Codex, Github Copilot, Kiro, Google Antigravity, Salesforce, Workato Agentic, MLOps
- Methodologies: MEDDPICC, Challenger Sale, Consultative Selling, Agile/Scrum, ITIL, Design Thinking
- Languages: English (Fluent), Mandarin (Professional Working Proficiency)
