

PROFESSIONAL SUMMARY

Enterprise Sales executive with over 15 years of experience acquiring net-new logos and growing technical SaaS platforms across Singapore's Public Sector and APAC. Proven track record of opening greenfield territories and closing complex, multi-stakeholder deals — from initial prospecting through structured POCs to production deployment. Deep ability to learn and articulate highly technical products, leveraging academic foundations in AI, Big Data Analytics, and Software Engineering to engage both technical and C-Suite audiences. Consistent history of exceeding ARR targets by connecting platform capabilities to measurable business outcomes.

CORE COMPETENCIES

- Territory & Logo Acquisition: Greenfield territory building, net-new logo acquisition, MEDDPICC, Command of the Message, Challenger Sale.
- Technical SaaS Selling: iPaaS & integration platforms, AI/ML platforms, IoT platforms, SaaS (Salesforce, Red Hat), APIs & middleware, semantic data layers.
- Deal Execution: Structured POCs with defined success criteria, ROI & business justification, multi-stakeholder navigation, formalized tendering.
- Cross-Functional Orchestration: Leading squads of SEs, Architects, BDRs, PMs, and Bid Management to compress decision cycles.

PROFESSIONAL EXPERIENCE

Workato Inc | Enterprise Account Executive – SG Public Sector and Malaysia | Sep 2024

- Sourced and closed net-new logos in Singapore's Public Sector and Malaysia's GLCs, driving \$1M ARR with a 50/50 split between new logo acquisition and existing account growth (renewals and expansions).
- Architected and ran structured POCs for government agencies, defining business success criteria around data unification and cross-agency analytics — converting pilots into production deployments.
- Positioned Workato's iPaaS and API integration platform as the connective layer for agencies with fragmented SaaS ecosystems, enabling semantic data layers and cross-system automation for AI-driven decision-making.
- Built "automation-first" strategies as the foundation for Agentic AI, Enterprise MCP, and cross-agency data unification — moving deals from evaluation to signed contracts through ROI-driven business cases.

VEISO SAS | Business Development Director – Salesforce & Bespoke Solutions | 2019 - 2025

- Prospected and won net-new Public Sector logos: Salesforce for MTI, IMDA, and MPA (ARR > \$1M each, 3-year terms) and RedHat for MAS — all through formalized government tendering processes with multi-stakeholder evaluation committees.
- Navigated complex organizational structures to identify executive sponsors and champions within statutory boards, running value-driven sales cycles from discovery through contract signature.
- Delivered ROI and business justification reports to C-level stakeholders, translating bespoke SaaS solutions into measurable policy and operational outcomes.

ARM UK | Business Development / Staff Engineer – IoT Platform & Security Solutions | 2018 - 2019

- Opened greenfield accounts deploying IoT data platforms for Smart City use cases, including real-time security monitoring (HTX) and estate management analytics (JTC Punggol Digital District).
- Bridged IT & OT for Telcos and Enterprises, demonstrating technical platform value to both engineering and business stakeholders.

NCS Group | Client Partner / Enterprise Sales Lead, Global Business | 2016 - 2018

- Applied MEDDPICC-driven territory planning to expand strategic client pipelines by 300% across Singapore Public Sector — opening new logos in government verticals.
- Led digital transformation bids for Public Sector agencies, running structured POCs integrating applied ML (human & vehicle traffic prediction, land & air transport optimization) into citizen-facing Smart City platforms.
- Navigated complex procurement environments (MTI, MAS), identifying executive sponsors and building champion networks to compress decision cycles.
- Delivered bespoke solutions valued at over \$15M through pilot-to-production lifecycles with defined business success criteria.

Actility SA | Business Development Director – Telco Solutions | 2015 - 2016

- Built greenfield territory from zero, securing major IoT and Smart City platform deals across APAC — including IDA's Smart Nation initiative, enabling large-scale sensor data ingestion and analytics for urban planning and public safety.
- Prospected, sourced, and closed net-new logos in an emerging market category (IoT platforms), demonstrating ability to sell innovative technical products before category norms existed.

DigitalRoute AB | Business Development Director – Telco Solutions | 2011 - 2015

- Opened new markets in Greater China and ANZ as first regional hire, building territory from zero and winning a major project with Jio Reliance through repeatable prospecting and value-driven sales cycles.

Comverse Inc (now Amdocs) | Business Development Manager – Telco Solutions | 2008 - 2011

- Led a regional sales and presales team in Southeast Asia, achieving the largest global win for a new Mobile Advertising Platform at SingTel — a \$3M+ 2-year contract recognized with the Most Innovative Award.
- Demonstrated and pitched a highly technical advertising platform to C-level and technical buyers, compressing a complex multi-stakeholder evaluation into a signed deal.

Logica (now CGI) | Senior Solution Consultant – Telco Solutions | 2005 - 2008

- Delivered technical consultancy and business analysis for large-scale enterprise system integrations.
- Developed foundational expertise in complex system architecture and project governance.

SingTel & Optus | Senior Manager in Group IT – Business Solutions | 2003 - 2005

- Managed large-scale transformation projects and led functional requirement development.

Capgemini | Senior Consultant / Account Manager – Telco & Digital | 2000 - 2003

- Led strategic accounts for Tier-1 Telco providers in APAC & Europe, focusing on digital customer experience and BSS/OSS modernization.
- Orchestrated large-scale consulting engagements, moving clients from legacy hardware-centric models to software-defined architectures.
- Managed complex delivery ecosystems involving third-party vendors and internal offshore delivery centers.

SELECTED PROJECTS & PLATFORM EXPERIENCE

- Enterprise Integration & Semantic Data Layer: Built data pipelines and semantic data layers over Snowflake for government agencies, enabling cross-system data discovery and analytics — connecting fragmented SaaS applications into a unified information access layer.
- Structured POCs for AI/ML Platforms: Designed and ran POCs with defined success criteria for applied ML use cases (traffic prediction, transport optimization), converting pilot evaluations into production deployments for government stakeholders.
- Greenfield Territory Building: Opened new markets across APAC (Greater China, ANZ, Malaysia) from zero, building repeatable prospecting and qualification processes using MEDDPICC methodology.
- Complex Multi-Stakeholder Deals: Navigated formalized government tendering processes (MTI, IMDA, MPA, MAS) with evaluation committees, building champion networks and executive sponsor relationships to drive deals to close.

EDUCATION & CERTIFICATIONS

AlxTech Programme: AI Singapore, NTU (In Progress)

- 18-hour Power-Up phase + 12-month Master phase covering prompt engineering, context engineering, agent development, responsible AI, MCPs & tools, agentic product development, and AI-assisted debugging and testing for production AI systems.

FlexiMasters in Artificial Intelligence and AI Ethics: Nanyang Technological University (NTU)

- Coursework: LLMs, Deep Learning, Responsible AI

Specialist Diploma in Business and Big Data Analytics: Nanyang Polytechnic

- Developed with Spark and open-source tools across the Hadoop ecosystem; built applied ML projects including near-real-time fraud detection, recommendation engines, and telco services usage pattern analytics.

Master of Technology (Software Engineering): Institute of Systems Science (ISS), NUS

Bachelor of Science (Computer Science): National University of Singapore (NUS)

TECHNICAL SKILLS

- Platforms & Integration: Snowflake, Salesforce, Red Hat, Workato iPaaS, API & middleware integration, Spark, Hadoop ecosystem
- AI & Search: LLMs, Agentic AI, RAG, Enterprise MCP, semantic data layers, MLOps, recommendation engines, enterprise search concepts
- Sales Tools & Methodologies: MEDDPICC, Command of the Message, Challenger Sale, Salesforce CRM, POC design & execution, ROI modeling
- Languages: English (Fluent), Mandarin (Professional Working Proficiency)
