

LEE GEE SIN

Singapore | 98212429 | geesin.lee@gmail.com

PROFESSIONAL SUMMARY

Enterprise Account Executive with 20+ years of experience selling complex data, messaging, and integration platforms — including hands-on technical exposure to Kafka, Solace, RTI DDS, and TIBCO — into Public Sector, Financial Services, and Telcos across APAC. Proven track record building and closing pipeline for event-driven, data-in-motion, and Big Data platforms, running technical discovery directly with architects and developers while translating business value for C-Suite and policy stakeholders. Deep experience navigating formalized enterprise/government tendering, quota-carrying new-logo acquisition, and account growth in regulated, long-cycle environments — complemented by high-growth SaaS selling.

CORE COMPETENCIES

- Vertical Expertise: Financial Services (Amex, AIA, AXA, Prudential), Public Sector (GovTech/GCC, MTI, MAS, HTX, JTC, Synapse), Telcos (BSS/OSS).
- Data, Messaging & Integration: Event Streaming & Pub/Sub Architecture (Kafka, Solace, RTI DDS, TIBCO), Big Data Analytics, Data Pipeline Architecture, Applied ML, Agentic AI, Enterprise MCP, Workato iPaaS, Snowflake.
- Consultative Sales: MEDDPICC, Challenger Sale, Bespoke Sprints, quota-carrying new-logo & expansion selling.
- Strategic Orchestration: Leading cross-functional squads (Architects, Partners, Bid Management) and driving partner ecosystem engagement (SIs, GSIs, ISVs).

PROFESSIONAL EXPERIENCE

Workato Inc | **Enterprise Account Executive – SG Public Sector and Malaysia** *Sep 2024 – May 2026*

- Sold high-growth SaaS automation platform into public sector, architecting data pipelines to Snowflake and semantic data layers — enabling agencies to unify fragmented data for analytics and AI-driven decision-making.
- Architected "automation-first" strategies and data integration pipelines that served as the foundation for Agentic AI, Enterprise MCP, and cross-agency data unification.
- Managed \$1M ARR across new logo acquisition and existing account growth (renewals and expansions), operating in a high-growth, product-led sales motion.

WISEO SAS | **Business Development Director – Salesforce & Bespoke Solutions** *2019 – 2025*

- Managed end-to-end sales of SaaS and bespoke development for enterprise clients, specializing in high-touch consultative engagements across Public Sector and Financial Services.
- Won and delivered large Public Sector contracts: MTI, IMDA, and MPA (ARR > \$1M, 3-year terms) and for MAS — all through formalized government tendering processes.
- Sold to FSI clients AIA and AXA, positioning event-driven architecture to address real-time data integration across siloed policy and claims systems.

ARM UK | **Business Development/Staff Engineer – IoT Platform** *2018 – 2019*

- Bridged IT & OT for Telcos and Enterprises, deploying IoT data platforms for Smart City use cases including real-time security monitoring (HTX) and estate management analytics (JTC Punggol Digital District).

NCS Group | **Client Partner / Enterprise Sales Lead, Global Business** *2016 – 2018*

- Led digital transformation bids for Public Sector agencies, integrating applied ML (human & vehicle traffic prediction, land & air transport optimization) into citizen-facing Smart City platforms, underpinned by RTI DDS real-time messaging for sensor and transport data.
- Delivered bespoke solutions valued at over \$15M through complex, formalized tendering processes and pilot-to-production cycles.
- Expanded strategic client pipelines by 300% across Singapore Public Sector and Malaysia GLCs through CRM-driven territory planning.

Actility SA | **Business Development Director – Telco Solutions** *2015 – 2016*

- Secured major IoT and Smart City platform deals across APAC, including IDA's Smart Nation initiative — enabling large-scale sensor data ingestion and analytics for urban planning and public safety.

DigitalRoute AB | Business Development Director – Telco Solutions 2011 – 2015

- Managed regional technical sales across APAC, opening new markets in Greater China and ANZ and winning a major project with Jio Reliance.

Comverse Inc (Amdocs) | Business Development Manager – Telco Solutions 2008 – 2011

- Led a regional sales and presales team in Southeast Asia, achieving the largest global win for a new Mobile Advertising Platform at SingTel & Associates — a \$5M+ 3-year contract recognized with the Most Innovative Product Award.

Logica (now CGI) | Presales & Senior Solution Consultant – Telco Solutions 2005 – 2008

- Delivered technical consultancy and business analysis for large-scale enterprise system integrations, developing TIBCO-based middleware architecture expertise.

SingTel & Optus | Senior Manager in Group IT – Business Solutions 2003 – 2005

- Managed large-scale transformation projects and led functional requirement development, including early TIBCO middleware integration initiatives.

Capgemini | Senior Consultant – Telco & Digital 2000 – 2003

- Led strategic accounts for Tier-1 Telco and Financial Services providers in APAC & Europe — including American Express and Mobile Payments programs for Telcos — focusing on digital customer experience and BSS/OSS modernization, with TIBCO middleware underpinning integration architecture.
- Managed complex delivery ecosystems involving third-party vendors and internal offshore delivery centers.

SELECTED PROJECTS & DATA/MESSAGING PLATFORM EXPERIENCE

- Event-Driven & Messaging Architecture: Hands-on selling and solutioning experience across Kafka, Solace (VISEO), RTI DDS (NCS), and TIBCO (SingTel/Capgemini) — spanning real-time sensor data, transport optimization, and BSS/OSS integration.
- Data Pipeline & Semantic Layer Architecture: Designed and built data pipelines to Snowflake and semantic data layers for government agencies, enabling cross-agency analytics and AI-driven decision-making.
- IoT Data Platform for Public Safety & Estate Management: Implemented real-time IoT data ingestion and analytics platforms for HTX security monitoring and JTC Punggol Digital District estate management.
- Smart Nation Sensor Data at Scale: Architected large-scale sensor data platforms under IDA's Smart Nation initiative for urban planning and public safety analytics.

EDUCATION & CERTIFICATIONS

- AITech: AI Singapore, Nanyang Technological University (NTU) — 18-hour Power-Up phase + 12-month Master phase covering prompt engineering, context engineering, agent development, responsible AI, MCPs & tools, agentic product development, and AI-assisted debugging and testing for production AI systems.
- FlexiMasters in Artificial Intelligence and AI Ethics: Nanyang Technological University (NTU) — Coursework: LLMs, Deep Learning, Responsible AI.
- Specialist Diploma in Business and Big Data Analytics: Nanyang Polytechnic — Developed with Spark and open-source tools across the Hadoop ecosystem; built applied ML projects including near-real-time fraud detection, recommendation engines, and telco services usage pattern analytics.
- Master of Technology (Software Engineering): Institute of Systems Science (ISS), NUS.
- Bachelor of Science (Computer Science): National University of Singapore (NUS).

TECHNICAL SKILLS

- Messaging & Streaming: Apache Kafka, Solace PubSub+, RTI Connex DDS, TIBCO EMS/BusinessWorks.
- Cloud / Data / AI: Snowflake, Spark, Codex, Github Copilot, Kiro, Google Antigravity, Salesforce, Workato Agentic, MLOps.
- Methodologies: MEDDPIC, Challenger Sale, Consultative Selling, Agile/Scrum, ITIL, Design Thinking.
- Languages: English (Fluent), Mandarin (Professional Working Proficiency).
