

LEE GEE SIN

Singapore | 98212429 | geesin.lee@gmail.com

PROFESSIONAL SUMMARY

Enterprise Technical Sales leader with 20+ years driving consultative, architecture-led sales cycles across APAC — from technical solution design through executive engagement to close. Extensive integration experience across Salesforce, ServiceNow, Workday, SAP, Oracle, and Microsoft Dynamics, paired with messaging platform expertise spanning telco-era messaging systems (Logica, Comverse) through to modern WhatsApp and Telegram integrations delivered via Workato and Salesforce. Proven ability to bridge business and technical conversations with C-level and technical stakeholders, orchestrate cross-functional teams (Architects, Product, Partners), and drive consumption/growth-oriented SaaS selling — most recently selling Workato's consumption-based, agentic AI automation platform with LLM and MCP-based orchestration. Deep grounding in AI/Agentic technologies through hands-on platform selling and academic study (NTU AIxTech, AI Ethics).

CORE COMPETENCIES

- Technical Solutions Selling: Architecture-led, consultative sales; joint client architecture workshops; solutioning across enterprise integration and messaging platforms.
- Enterprise Integration: Salesforce, ServiceNow, Workday, SAP, Oracle, Microsoft Dynamics — CRM/ERP integration design and delivery.
- Messaging & Customer Engagement Platforms: WhatsApp and Telegram integration (via Workato, Salesforce), telco messaging systems (Logica, Comverse), Business Messaging use cases.
- AI & Agentic Platforms: Agentic AI, MCP-based orchestration, LLM integration (Claude, ChatGPT, bring-your-own-LLM), consumption-based commercial models.
- Consultative Sales: MEDDPICC, Command of the Message, Challenger Sale, executive engagement, pipeline development, cross-functional orchestration (Product, BD, Marketing, Engineering, Partners).

PROFESSIONAL EXPERIENCE

Workato Inc | Enterprise Account Executive – SG Public Sector and Malaysia *Sep 2024 – Present*

- Sold Workato's consumption-based, agentic AI automation platform — including WhatsApp and Telegram messaging integrations, MCP-based orchestration, and multi-function AI agents (HR, Finance, Ops, Sales, Marketing) — into government bodies and enterprises.
- Architected "automation-first" strategies and data integration pipelines to Snowflake and semantic data layers, serving as the foundation for Agentic AI, Enterprise MCP, and cross-agency data unification.
- Managed \$1M ARR across new logo acquisition and existing account growth (renewals and expansions), operating in a high-growth, product-led, consumption-based sales motion.

WISEO SAS | Business Development Director – Salesforce & Bespoke Solutions *2019 – 2025*

- Managed end-to-end sales of Salesforce SaaS and bespoke development for enterprise clients, including CRM integration design, specializing in high-touch consultative engagements across Public Sector and Financial Services.
- Won and delivered large Public Sector contracts: MTI, IMDA, and MPA (ARR > \$1M, 3-year terms) and for MAS — all through formalized government tendering processes.
- Sold and delivered Solace-based messaging and integration solutions for FSI clients AIA and AXA, positioning event-driven architecture to address real-time data integration across siloed policy and claims systems.

ARM UK | Business Development/Staff Engineer – IoT Platform *2018 – 2019*

- Sold AI/ML-enabled IoT data platforms to digital-native companies and startups as well as Telcos and Enterprises, deploying Smart City use cases including real-time security monitoring (HTX) and estate management analytics (JTC Punggol Digital District).

NCS Group | Client Partner / Enterprise Sales Lead, Global Business *2016 – 2018*

- Led digital transformation bids for Public Sector agencies, integrating applied ML (human & vehicle traffic prediction, land & air transport optimization) into citizen-facing Smart City platforms, underpinned by RTI DDS real-time messaging for sensor and transport data.

- Bridged legacy infrastructure to Smart City capabilities, turning real-time transport and traffic data into policy-driven outcomes for government stakeholders at MTI and MAS.
- Delivered bespoke solutions valued at over \$15M through complex, formalized tendering processes and pilot-to-production cycles.
- Expanded strategic client pipelines by 300% across Singapore Public Sector and Malaysia GLCs through CRM-driven territory planning.

Actility SA | Business Development Director – Telco Solutions 2015 – 2016

- Sold IoT and AI/ML-enabled Smart City platforms to digital-native companies and startups across APAC, including IDA's Smart Nation initiative — enabling large-scale sensor data ingestion and analytics for urban planning and public safety.

DigitalRoute AB | Business Development Director – Telco Solutions 2011 – 2015

- Managed regional technical sales across APAC and SEA, opening new markets in Greater China and ANZ and winning a major project with Jio Reliance.

Comverse Inc (Amdocs) | Business Development Manager – Telco Solutions 2008 – 2011

- Led a regional sales and presales team covering Telcos across Southeast Asia, achieving the largest global win for a new Mobile Advertising and Messaging Platform at SingTel & Associates — a \$5M+ 3-year contract recognized with the Most Innovative Product Award.
- Built deep technical grounding in telco messaging systems and platforms, foundational to later Business Messaging and customer engagement solution selling.

Logica (now CGI) | Presales & Senior Solution Consultant – Telco Solutions 2005 – 2008

- Delivered technical consultancy and business analysis for large-scale enterprise system and messaging integrations across APAC Telcos, developing TIBCO-based middleware architecture expertise.
- Developed foundational expertise in complex system architecture, messaging platforms, and project governance.

SingTel & Optus | Senior Manager in Group IT – Business Solutions 2003 – 2005

- Managed large-scale transformation projects and led functional requirement development, including early TIBCO middleware integration initiatives.

Capgemini | Senior Consultant / Account Manager – Telco & Digital 2000 – 2003

- Led strategic accounts for Tier-1 Telco and Financial Services providers across APAC, SEA & Europe — including American Express and Mobile Payments programs for Telcos — focusing on digital customer experience and BSS/OSS modernization, with TIBCO middleware underpinning integration architecture.
- Orchestrated large-scale consulting engagements, moving clients from legacy hardware-centric models to software-defined architectures.
- Managed complex delivery ecosystems involving third-party vendors and internal offshore delivery centers.

SELECTED PROJECTS & INTEGRATION/MESSAGING EXPERIENCE

- Enterprise CRM/ERP Integration: Extensive integration project experience across Salesforce, ServiceNow, Workday, SAP, Oracle, and Microsoft Dynamics.
- Business Messaging Platforms: WhatsApp and Telegram integration delivered via Workato and Salesforce, building on telco-era messaging platform foundations from Logica and Comverse.
- Agentic AI & MCP-Based Automation: Sold consumption-based, bring-your-own-LLM agentic platform (Workato) with multi-function AI agents spanning HR, Finance, Ops, Sales, and Marketing use cases.
- Event-Driven & Messaging Architecture: Hands-on selling and solutioning experience across Kafka, Solace (VISEO), RTI DDS (NCS), and TIBCO (SingTel/Capgemini).
- Data Pipeline & Semantic Layer Architecture: Designed and built data pipelines to Snowflake and semantic data layers for government agencies, enabling cross-agency analytics and AI-driven decision-making.
- IoT/AI Platforms for Digital-Native & Startup Customers: Sold and delivered IoT/AI data platforms to digital-native and startup customers (ARM, Actility).

EDUCATION & CERTIFICATIONS

- AIXTech: AI Singapore, Nanyang Technological University (NTU) - in progress — 18-hour Power-Up phase + 12-month Master phase covering prompt engineering, context engineering, agent development, responsible AI, MCPs & tools, agentic product development, and AI-assisted debugging and testing for production AI systems.
- FlexiMasters in Artificial Intelligence and AI Ethics: Nanyang Technological University (NTU) — Coursework: LLMs, Deep Learning, Responsible AI.
- Specialist Diploma in Business and Big Data Analytics: Nanyang Polytechnic — Developed with Spark and open-source tools across the Hadoop ecosystem; built applied ML projects including near-real-time fraud detection, recommendation engines, and telco services usage pattern analytics.
- Master of Technology (Software Engineering): Institute of Systems Science (ISS), NUS.
- Bachelor of Science (Computer Science): National University of Singapore (NUS).

TECHNICAL SKILLS

- Enterprise Integration: Salesforce, ServiceNow, Workday, SAP, Oracle, Microsoft Dynamics.
- Messaging: WhatsApp Business Platform, Telegram, Apache Kafka, Solace PubSub+, RTI Connexx DDS, TIBCO EMS/BusinessWorks.
- AI & GenAI: Agentic AI, MCP (Model Context Protocol), LLM integration (Claude, ChatGPT, bring-your-own-LLM), Workato Agentic, MLOps, Applied ML.
- Cloud / Data: Snowflake, Spark, Codex, Github Copilot, Kiro, Google Antigravity.
- Methodologies: MEDDPIC, Challenger Sale, Consultative Selling, Agile/Scrum, ITIL, Design Thinking.
- Languages: English (Fluent), Mandarin (Professional Working Proficiency).
