ENTERPRISE SOFTWARE SALES | STRATEGIC ACCOUNTS | SaaS, Data & AI Platforms

PROFESSIONAL SUMMARY

Enterprise Software Sales Executive and Technology Consultant with 20+ years of consultative selling, orchestrating complex B2B sales pipelines, smart city initiatives, and high-impact digital transformations across Singapore and APAC markets. A technical domain expert combining a background in computer science with a proven track record of exceeding multi-million dollar quotas in enterprise automation, with Agentic AI, and modernising data platforms and architectures. Possesses deep, hands-on technical proficiency in autonomous AI orchestration (Model Context Protocol, Agent Experience/AX frameworks) and enterprise data fabrics (Snowflake, Databricks, Microsoft Fabric etc). Adept at leading high-stakes boardroom discovery sessions, managing strategic co-selling matrixed teams, and transforming fragmented legacy infrastructures into intelligent, agentic workflows that drive measurable business outcomes.

CORE EXPERTISE & TECHNOLOGIES

- **Enterprise Sales & Strategy:** Value-Based Selling, Strategic Account Planning, Cross-Functional Co-Selling, Executive Stakeholder Management (C-Suite), Complex B2B Negotiation.
- **AI & Agentic Orchestration:** Model Context Protocol (MCP) Architecture, Agent Experience (AX), Autonomous Agent Workflows, LangChain, Stateless AI Layers, Predictive & Prescriptive Modeling.
- **Data Fabric & Integration:** Cloud Data Lakes/Warehouses (Snowflake, Databricks), Enterprise API Middleware, BSS/OSS Integration Stacks, Data Unification.
- **Hands-On Developer Toolkits & AI Tools:** Claude Code, GitHub Copilot, OpenAI Codex, Kiro, Local LLM Environments (Ollama), Docker Configurations, VS Code Visualization.

PROFESSIONAL EXPERIENCE

Workato Inc | Enterprise Account Executive – SG Public Sector & Malaysia | Sep 2024 – Present

Lead strategic territory planning and expansion for major enterprise accounts and statutory boards across Singapore and Malaysia, specializing in enterprise integration, automated data pipelines, and AI orchestration.

- **Enterprise Account Scaling:** Successfully managed and qualified strategic pipeline accounts including MISC Berhad, JTC, and SBS Transit, driving complex multi-stakeholder procurement cycles.
- **AI & Automation Architecting:** Acted as a key domain expert pitching enterprise automation and agentic frameworks, demonstrating how to transition organizations from simple human-in-the-loop automations to autonomous, machine-centric Agent Experiences (AX).
- **Technical Value Selling:** Partnered with solutions architects to conduct deep-dive technical discovery, effectively positioning platform capabilities against fragmented legacy architectures to win competitive replacement deals.

Delivered high-value technical sales, solution consulting, and advisory services across complex public sector accounts, major telecommunications providers, and regional commercial enterprises.

- **Data Infrastructure Consulting:** Spearheaded enterprise-grade data architecture discovery sessions, mapping customer environments built on Snowflake and Databricks into unified engagement fabrics to drive predictive analytics capabilities.
- **BSS/OSS & Smart City Delivery:** Managed large-scale technical sales cycles for public sector smart city frameworks and telecommunications BSS/OSS integration stacks, consistently aligning technical capabilities to strict regulatory and business KPIs.
- **Cross-Functional Co-Selling:** Collaborated extensively in matrixed environments alongside core account teams, specialized overlays, and global system integrators to close complex, multi-year software and delivery contracts.

TECHNICAL INITIATIVES & AI APPLIED EXPERIENCE

Autonomous Agentic Workflow Development & Spec Coding

- Built custom automated workflows using Workato and terminal-native configurations with local language model environments to accelerate adoption of AI in operational process modernisation and semantic data architectures.
- Demonstrated proficiency with leading developer AI assistants including Claude Code, GitHub Copilot, OpenAI Codex, and Kiro to rapidly prototype and visualize Agentic Orchestration and Data Semantic layers.
- Utilized Docker configurations and local Ollama frameworks to test stateless, low-latency agent architectures, bringing unique, practical validation to enterprise client conversations around AI safety and data gravity.

Industry Innovation Leadership & AI Community Engagement

- Industry Engagement for ARM Innovation on AI/ML (2018, 2019) and Microsoft AI and GitHub Copilot (Microsoft, May 2025/26): Selected to attend the developer summit, synthesizing critical technical advancements in open-source data schemas and agentic communication protocols to advise enterprise clients on the future of AI integration into CRM.

KEY INDUSTRY IMPACT

- **Complex Multi-Stakeholder Engagements:** Orchestrated high-value deals across both commercial and government accounts — from MISC's \$3.5M license consolidation to MTI's \$5.6M (eventually \$10M) Salesforce license and services programme.
- **SaaS Platform + Services Selling:** Demonstrated repeatable success selling SaaS platforms (Salesforce, MuleSoft, Workato, Boomi etc) alongside implementation and managed services — a hybrid model that drives deeper account penetration and higher lifetime value.
- **Territory Building & Market Development:** Achieved >300% pipeline expansion across Singapore and Malaysia through data-led market development, cultivating relationships across real estate, hospitality, maritime, and government verticals.

EDUCATION & CERTIFICATIONS

- **AiXTech** — AI Singapore, Nanyang Technological University (NTU)
- **FlexiMasters (Artificial Intelligence and AI Ethics)** — Nanyang Technological University (NTU)
Coursework: LLMs, Deep Learning, Responsible and Ethical AI
- **Specialist Diploma (Business and Big Data Analytics)** — Nanyang Polytechnic
- **Master of Technology (Software Engineering)** — Institute of Systems Science (ISS), NUS
- **Bachelor of Science (Computer Science)** — National University of Singapore (NUS)
